

Review of Establishing An Apostolic Hermeneutic (EAAH) by Jerry Trevino

Brother Garza's EAAH is scholarly, readable, enlightening and best of all it is one hundred percent Apostolic.

Not only will this work equip serious students with tools to be responsible theologians, but careful and thoughtful readers will learn insightful truths about themselves as well.

The importance of the principles elucidated in this work cannot be overstated. As to Biblical studies, there are things that we don't know that we don't know.

EAAH will help the diligent scholar and pupil discover what some of these things are.
